

MEDICAID PHYSICAL HEALTH MCO COVERAGE OF MEDICATION-ASSISTED TREATMENT

As a resource, within this document is a summary of coverage status of various medication-assisted treatment options, broken down by physical health MCO. In addition, at the top of each table, is a link to the specific PHMCO's online formulary which contains coverage information for all medications within their formulary and a contact phone number for pharmacy services. The information summarized in this document, although verified by all the plans, is only a snapshot and is subject to change. All prescribers are encouraged to rely on the up-to-date information provided via the online formularies referenced in this document.
