

Outpatient Prescriber Rate Increase

CBH acknowledges that providers across the United States are facing challenges in their ability to recruit psychiatrists to fill a critical role at their agencies. This lack of access to psychiatric services often results in significant delays in treatment, reduced quality of care, and poor outcomes. Recognizing this challenge and need for innovative solutions, CBH will offer a **10% rate increase for all outpatient psychiatrists as of January 1, 2019 for the levels of care listed below. A 10% rate increase will also be applied to physician extenders (physician's assistants and certified registered nurse practitioners [CRNP]) for medication management.**

Please contact your assigned Provider Relations Representative with any questions.
