

Community Behavioral Health: Provider Notification CBH Compliance Forum September 20, 2016

CBH would like to inform our provider community about an opportunity to learn more about the Compliance department:

WHAT

Community Behavioral Health (CBH) is hosting its inaugural Compliance Forum this fall. The forum is designed to provide an opportunity for the CBH Compliance Department to share information related to:

- Relevant current trends
- Enforcement focus
- Practical examples of implementing/improving provider compliance plans
- Best compliance practices

To accomplish this, we are excited to have several speakers, highly experienced in a broad range of compliance functions, to address these topics. The forum will also give our network providers the chance to interact with the presenters and CBH Compliance staff in a more informal setting.

WHEN

The forum is scheduled for Wednesday, November 9, 2016 from 9AM to 1PM. We are asking that providers arrive between 8:30AM and 9:00AM to register and enjoy complimentary light refreshments.

WHO

Provider staff functioning in the roles of compliance and/or privacy officers, and senior level compliance/privacy staff are invited to attend. We are limiting attendees to TWO per provider.

For your convenience, when registering, please use the direct link here:
