

**Community Behavioral Health: Provider Notification
Service Location Enrollment Deadline
March 28, 2019**

CBH strongly recommends that providers review [Medical Assistance Bulletin 99-18-11](#). This Bulletin informs providers that they are required to enroll each service location and all satellite locations in the Medical Assistance Program. Action is required for providers who have multiple satellite locations if they wish to continue receiving reimbursement after July 1, 2019.

Please read the Bulletin and take the appropriate action according to your provider type. CBH Provider Relations Representatives will be reaching out to providers to determine their enrollment status to avoid payment disruption.

Please direct questions regarding this Notification to your Provider Representative.
