

One-to-One Staffing

MEDICAL NECESSITY CRITERIA (OMHSAS-approved)

Admission Criteria

A mental health professional determines that one-to-one staffing is appropriate and there is the potential for the person to benefit from one-to-one staffing. The person must meet at least one of the following elements:

- The person has exhibited or is likely to exhibit significant behaviors that could lead to safety concerns if the person is not provided one-to-one staffing
 - These behaviors may include but are not limited to physical aggression, sexual acting out, risk of harm to self or others, impulsivity and/or an inability to care for self.

Continued Stay

The member continues to meet criteria admission criteria.

Discharge Criteria

The member no longer meets continued stay criteria.
