

Community Behavioral Health: Provider Notice
Reporting of Coronavirus
March 12, 2020
(Revised April 15, 2020)
(Revised December 1, 2020)

At this time, in order to monitor the developing COVID-19 pandemic and its potential effects at Community Behavioral Health (CBH)-contracted provider sites, **CBH is requiring providers to submit reports for laboratory-confirmed cases of COVID-19, suspected positive cases of COVID-19, and COVID-19 deaths; providers must report confirmed COVID-19 cases, suspected cases, and deaths among *both* staff and members.**

CBH had previously accepted this information on the Office of Mental Health and Substance Abuse Services (OMHSAS) COVID-19 Reporting Form. Due to changes in OMHSAS reporting protocols, this is no longer possible. **Starting December 1, 2020, this information should be submitted to CBH as advised in [CBH Bulletin 20-20: Significant Incident Reporting](#).**

Providers should refer to the [Philadelphia Department of Public Health \(PDPH\) coronavirus webpage](#) for additional information and reporting requirements related to COVID-19.

CBH will require confirmation that the provider has contacted PDPH Division of Disease Control at 215-685-6740 and is following their recommendations.

Please direct any questions about this Notice to Kathleen Painter, Assistant Director of Quality Management, at 215-413-7568 or Kathleen.Painter@phila.gov.
