Change in Authorization Numbers

Community Behavioral Health (CBH) is in the process of fully converting to a new enterprise system that will control the production of authorizations and the ongoing maintenance of provider contracts (Schedule A). The implementation of our new enterprise system will require a change in authorization numbers.

CBH will be working to migrate the below-listed Levels of Care (LOCs) to the new enterprise, which will result in the creation of new authorization numbers. **CBH will end date the current authorization numbers and generate new authorization numbers for the following LOCs on May 8, 2021: 800-1, 800-8, 425-20, 425-21, and 425-22. CBH will end date the current authorization numbers and generate new authorization numbers for the remaining LOCs on May 15, 2021.** Please see the table below for further clarification on what LOCs will be impacted by this migration.

New authorization numbers will be communicated directly to all providers impacted by this change once the authorizations have been migrated into the new enterprise system.

This process will not impact current Blanket Authorization Numbers (BAN).
