#### Plan

##### Purpose of Test of Change

What is the objective of the change? (Brief overview statement of the change)	
Why are you making the change?	
What do you predict will happen as a result of the change?	
How will you know the change is successful?	

##### Describe Test of Change

Describe the change you want to make.	
Who will be involved?	
How long will the change take to implement?	
What resources will you need?	

What measures will help evaluate results compared to prediction?	What data will you collect?	Where and how will you collect the data?

#### Do

Observations: Describe what happened when you implemented/ran the test of change: (Provide detailed steps for replication)	
Document any issues or unexpected observations.	
Document data collected during the “do” phase. Document any changes to data collection process that was needed to carry out the task.
