

Journey of Hope Program ASAM Alignment

Community Behavioral Health (CBH) will make necessary contractual changes in accordance with new PROMISE enrollment for ASAM 3.5 (Clinically Managed High-Intensity Residential Services).

Effective July 1, 2022, CBH will collapse levels of care 200-02 Non-Hospital D&A Short Term Rehab and 200-07 Non-Hospital D&A Long Term Rehab to one new level of care which will be 200-28 ASAM 3.5 Clinically Managed High-Intensity Residential Services,

The Journey of Hope (JOH) programs are currently PROMISE enrolled as Non-Hospital D&A Long Term Rehab, so these programs will need to obtain the new PROMISE enrollment as ASAM 3.5 (Clinically Managed High-Intensity Residential Services.)

CBH will create a separate level of care for JOH programs due to the special design of this program model. The new level of care, effective July 1, 2022, will be 200-09 Journey of Hope Clinically Managed High-Intensity Residential Services.

The CBH team will work to transfer all open authorizations as of June 30, 2022, to the new level of care. We request that Providers hold all claim submissions until July 5, 2022, to allow time for the authorization transfer to take place.

REMINDER: Provider Enrollment Specialties 133 - D&A Medically Monitored Residential Short Term and 134- D&A Medically Monitored Residential Long Term will be end-dated June 30, 2022. The new Provider Specialty 185-D&A Non-Hospital Residential Clinically Managed will be utilized for ASAM 3.5 Clinically Managed High-Intensity Residential Services. Providers are required to obtain new enrollment associated with ASAM 3.5 by July 1, 2022, to avoid reimbursement disruption.

Please contact your Provider Relations Representative if you have any questions.
