

Bridge Payment Requirement Adjustment

This Notice is to alert all CBH Providers who receive the Bridge Payment that the requirements for receiving the Bridge Payments will be amended.

As outlined in [Provider Bulletin 21-20](#), Providers are required to achieve a **minimum of 25% of their calculated claims submission amount**, when compared to their previous COVID-19 Alternative Payment Arrangement (APA), to receive the Bridge Payment.

Beginning **September 1, 2022**, all Providers must submit **50% or more** of their claims, when compared to the previous COVID-19 APA amount, to receive the Bridge Payment. This applies to dates of service beginning in September and will be in effect for the remainder of the Bridge Payments. CBH reserves the right to adjust this requirement at any time.

As originally outlined in [Provide Notice dated January 21, 2022](#), below is a timetable for the remaining Bridge Payments that includes the new claims submission requirement:
