

Third Party Liability Requirement for Community Integrated Recovery Centers (CIRCs)

Community Behavioral Health (CBH) is the payor of last resort. As such, providers must coordinate benefits with all other insurance coverage members may have before submitting claims to CBH. Claims submitted without proper coordination of benefits may be denied.

This notice serves as a reminder that providers are required to coordinate benefits prior to submitting claims for services rendered under the CIRC program.

Please ensure that all applicable insurances have been billed and finalized prior to claims submission to CBH.

Thank you for your continued cooperation and compliance with CIRC billing requirements. If you have any questions, please contact your Claims Analyst.
