Pay-for-Performance (P4P) Data Request Form

This Notice is to inform CBH providers about our **P4P Data Request Form**, which provider agencies will use to request member-level data to evaluate a program's performance on the P4P measures.

Please complete the secure online form in its entirety using the above link, as an incomplete form will delay the submission of the requested data.

Please allow at least two weeks from the form's submission date to receive the requested data. Providers will receive a Microsoft Excel spreadsheet containing member-level data, accompanied by instructions for navigating the data to be used to develop P4P reports. *CBH will provide data to only one contact per provider agency for all levels of care.*

Please note: CIRC, Adult Acute Inpatient, Adult TCM/CTT/ACT, Residential Treatment Facilities for Children (RTF), and ASAM OP programs have transitioned to value-based payment (VBP) agreements and are no longer evaluated under P4P. Providers of those services will receive their VBP program data through a separate process.

If you have questions or concerns about your data, please email Performance Evaluation Specialist Roslyn Butler at **Roslyn.Butler@phila.gov** by 5:00 p.m. on **Friday, January 29, 2027**.
