

Continued Suspension of Provider Rate Requests

This notice serves as a continuation of the provider notice, [Temporary Suspension of Provider Rate Requests](#), issued on July 16, 2024. In that notice, CBH advised the network about the temporary suspension of provider-initiated rate requests through the biannual rate request process. Due to CBH's ongoing fiscal constraints, the suspension of the rate request process remains in effect for the March 2025 cycle.

CBH will continue to assess its fiscal position and advise network providers if the rate request process will resume in September 2025. Additionally, please note that CBH is not positioned to provide financial assistance to providers beyond the agencies' typical claims reimbursement.

We appreciate your continued partnership. Any questions should be directed to your assigned Provider Relations Representative.
