

Temporary Suspension of Provider Rate Requests

This notice is to inform the network of a temporary suspension of CBH's biannual provider rate request process. This decision has been made due to current fiscal constraints. Per [CBH protocol](#), individual provider rate increase requests can be submitted to CBH biannually on March 15 and September 15. CBH is suspending the process for the remainder of calendar year 2024 and will not be accepting or considering any rate requests during this time. CBH will reassess its fiscal position in January 2025 and will inform the network of whether the process will resume in March 2025.

We appreciate your continued partnership. Any questions should be directed to your assigned Provider Relations Representative.
