

CBH Opens Provider Network

This Notice is to inform Providers that CBH is opening its Provider Network effective Monday, October 3, 2022.

Providers are invited to apply to deliver the following levels of care using the links listed below:

- ➔ [Acute Inpatient Psychiatry \(AIP\)](#)
- ➔ [Independent Practitioners & Group Practices](#)
- ➔ [Intensive Behavioral Health Services- Applied Behavior Analysis \(IBHS-ABA\)](#)
- ➔ [Mental Health Outpatient \(MHOP\)](#)
- ➔ [Psychiatric Residential Treatment Facility \(PRTF\)](#)

Providers can apply to become a part of the CBH Network as long as they are licensed by Pennsylvania's Department of Human Services' Office of Mental Health and Substance Abuse Services (OMHSAS). Please note that undergoing a credentialing process is still required to become a CBH in-network Provider. Once contract negotiations are completed, Providers and programs will receive an initial credentialing visit, which may include a review of staff files, written policies and procedures, and clinical records, along with a facility tour.

A comprehensive list of documents needed for review can be found in the [CBH Provider Manual](#).
