

Changes to Schedule A for APA

This notice is to inform in-network Family-Based Services, ACT, ASAM 1.0, and Housing First Treatment Teams (CTT/Non-Fidelity ACT) providers that Schedule A contracts will be updated to include Alternative Payment Arrangement (APA) details.

Please note, there is no change to current payment structures or contractual terms.

Providers should continue to submit all claims for every service delivered to the member. Providers must submit all encounters for every service delivered and not restrict them to the minimum number of services required to trigger the case rate payment. Claim submissions must accurately reflect all billable services delivered.

The case rate will automatically be paid when the provider bills for the required number of qualifying services.

If you have any questions, please contact the VBP team at cbh.vbp@phila.gov.
