

## Open Network for Independent Practitioners and Group Practices

---

Effective immediately, Community Behavioral Health (CBH) is opening its network to independent practitioners, including LCSWs, LPCs, LMFTs, psychologists, psychiatrists, and CRNPs, along with group practices (healthcare practitioners with the same licensure working together under one organization).

The rationale for maintaining an open network for independent practitioners and group practices is to offer CBH members a diversified range of treatment options.

To apply to join the CBH provider network as an independent practitioner or group practice, please complete the [Open Network: Independent Practitioner and Group Practices form](#).

Contact your assigned provider relations representative with any questions.
