

1. Where can I find the slides and recording of the information session?

The recorded PowerPoint presentation is available on the [Clinical Procurements page](#) of the CBH website under “Perinatal Specialty CBT Training.”

2. How long are the eight modules (e.g., one hour, four hours, etc.)?

Each module will contain a lecture that is 45 minutes to one hour long. Other materials, such as readings and six to eight knowledge assessment questions, will also be included in each module.

3. Are providers who participated in the Massachusetts General Hospital (MGH) Perinatal Training in 2022 eligible for this training?

Yes, providers who participated in the 2022 perinatal training are eligible to apply to this RFA.

4. What type of licensure is needed to apply for the RFA?

Appropriate licensure through the Office of Mental Health and Substance Abuse Services (OMHSAS) and the Department of Drug and Alcohol Programs (DDAP) is required to participate in the training. Applicants should have the requisite experience and licenses to implement the program and must be service providers in good standing with the City of Philadelphia and CBH (as applicable). The applicant should indicate if their agency has a current license from the PA Department of Human Services (DHS) for the levels of care offered at the agency. Copies of the agency’s most recent licensure certificates should be included in the submission.

5. Can the cohort of providers include trainees (i.e., psychiatry residents and psychology interns)?

Yes, applicants may include trainees such as psychiatry residents and psychological interns on their team. Applicants should be able to address the sustainability of the program, as the primary goal of this training is to be an ongoing referral resource for CBH members. The response to section 2.2.7 Commitment and Sustainability should include a sustainability plan.

- 6. Can an agency develop a training model for new staff who did not participate in the initial training (i.e., a “train the trainer model,” which may include supervising trainees on an ongoing year-to-year basis)?**

CBH is open to reviewing organizations’ implementation plans where new staff receive specialized training in a sustainable way that will not disrupt the services that CBH members are receiving. A plan for new cohorts being trained and accepting referrals can be included in the response to section 2.2.7 Commitment and Sustainability.
