

ATTACHMENT: ORGANIZATIONAL LEADERSHIP ATTESTATION

Community Behavioral Health (CBH) recognizes the need to provide high-quality, evidence-based treatment to its population of individuals seeking help with behavioral health challenges. While CBH is committed to providing free-of-cost trainings to agencies and supporting them in developing sustainable evidence-based practice (EBP) programs, a significant organizational and leadership investment is required for successful implementation.

It is essential that agency leadership not only support but actively engage in planning, implementing, and sustaining EBP programs. Activities may include but are not limited to:

- ➔ Attending scheduled meetings to support ongoing sustainability
- ➔ Maintaining regular and open communication with EPIC staff and the EBP consultant(s)
- ➔ Fostering an organizational culture that values the adoption and integration of EBPs into clinical practice
- ➔ Obtaining staff buy-in for EBP training through clear communication of expectations and incentivizing participation via additional compensation, rewards, or recognition
- ➔ Maintaining awareness of staff's participation in and completion of required training and consultation
- ➔ Allocating necessary resources and providing oversight to ensure successful implementation and service delivery
- ➔ Engaging in regular and consistent data submission (where applicable) to maintain eligibility in accessing future EBP trainings
- ➔ Applying for EBP Program Designation through EPIC and maintaining designated status via annual renewal

This level of leadership engagement is critical to maintaining momentum, ensuring consistent participation in training sessions, and meeting the overall goals of the EBP program. By signing below, I attest that I understand the above and will abide by these expectations.
