Dialectical Behavioral Therapy (DBT) Training Services

1. PROJECT OVERVIEW

1.1. Introduction/Statement of Purpose

Community Behavioral Health (CBH) is issuing this Request for Proposals (RFP) to contract with a qualified, independent vendor who specializes in Dialectical Behavior Therapy (DBT) training and implementation services to behavioral health systems, agencies, and clinicians. This RFP intends to solicit proposals from all interested vendors who possess the background, experience, skills, and capability to facilitate the further development of sustainable DBT teams across levels of care, through individual clinician competency, team and program development, and leadership engagement within the guidelines established in this RFP. The CBH Evidence-Based Practice and Innovation Center (EPIC) department will manage the contract.

1.2. Project Background

DBT is an evidence-based treatment designed specifically for individuals with self-harm behaviors, such as cutting, suicidal thoughts, urges, and attempts, and for individuals with significant challenges associated with emotion dysregulation; many of these individuals meet criteria for borderline personality disorder (BPD). Randomized trials for DBT have associated DBT with a reduction in target behaviors and symptoms, namely suicidal behavior, self-injury, depression, substance dependence, eating disorder behaviors, hopelessness, anger, impulsiveness, with increases in general and social adjustment and positive self-esteem. DBT is a comprehensive cognitive-behavioral treatment developed by Dr. Marsha Linehan over the last 30 years. Although it was designed for individuals with BPD, DBT has been applied more generally to severe and chronic, multi-diagnostic, and difficult-to-treat individuals. DBT is appropriate for individuals at all levels of severity and complexity of disorder and is delivered via individual psychotherapy, skills groups, telephone consultation, and therapists' consultation meetings. Through DBT, individuals develop skills and strategies to commit to creating a "life worth living."

CBH recognizes a need to provide high-quality, evidence-based treatment to its population of adolescents and adults experiencing the high-risk and complex symptoms described above. As such, CBH is committed to increasing its capacity to provide DBT within its network across the continuum of care. As CBH is also aware of the challenges faced by agencies in implementing and sustaining evidence-based clinical programs, the purpose of this CBH Request for Proposal is to solicit proposals from interested vendors with documented expertise in large system implementation of DBT, components of which include both clinical and program development to provider agencies and consultation to the system. All the requirements are specified in the scope of work section (Section 2.2. Services to be Provided/Required Tasks of this RFP).

1.3. Request for Proposals

CBH anticipates selecting one vendor to provide all the services specified in this RFP. The resulting contract would be for one year with the option to renew for three additional one-year terms.

1.4. General Disclaimer

This RFP does not commit CBH to award a contract. This RFP and the process it describes are proprietary and are for the sole and exclusive benefit of CBH. No other party, including any Applicant, is intended to be granted rights hereunder. Any response, including written documents and verbal communication, by any Applicant to this RFP shall become the property of CBH and may be subject to public disclosure by CBH.

2. SCOPE OF WORK

2.1. Project Details

This RFP aims to identify a qualified vendor that can develop sustainable DBT clinical competency and programming within the Philadelphia behavioral health network. The qualified applicant will possess a demonstrated background, experience, skills, and capability to facilitate the development of sustainable DBT teams across levels of care through individual clinician competency, team and program development, and leadership engagement. The qualified applicant will also possess a demonstrated background and experience advising system leadership to facilitate optimal implementation conditions.

2.2. Services to be Provided/Required Tasks

The training and consultation services procured through this RFP will take place over one calendar year, to begin in January 2026, with the potential for up to three one-year renewals. More specifically, CBH is seeking a vendor to provide the following services/project deliverables:

- ➔ **Needs Assessment:** The Applicant can provide a needs assessment to facilitate a work plan tailored to agency needs. This should include agency philosophy, levels of care and services offered, and readiness for implementation. Leadership, policy and practices, and experience with EBP implementation should be considered. The timing of a needs assessment can be determined during work planning phases; the trainer must be able to make ongoing recommendations for the sustainment and growth of a DBT program throughout the contract period.
- ➔ **Leadership Engagement:** With EPIC's support and guidance, provider network agency leaders should be engaged as key stakeholders throughout the implementation. They should be oriented to DBT and coached in sustaining a DBT program.

Dialectical Behavioral Therapy (DBT) Training Services

- ➔ **DBT Training:** Clinical teams must be competent, and skills training for associated staff should be included.
- ➔ **Implementation:** The Applicant should address key components of successful EBP implementation, including leadership engagement, policy, staff commitment and attrition, collaboration, and referral pathways. The plan should list requirements for time commitment from participating staff.
- ➔ **Monitoring:** Agencies should be coached and supported in monitoring implementation via clinical and program indicators.
- ➔ **Sustainability:** Sustainability should be a focus throughout the training program, with specific attention paid to creating a training model that allows providers to develop a plan of self-sustainability by the end of the contract period. This plan should include a clear support titration plan to ensure that agencies are able to independently sustain DBT over time without needing to rely solely on the consultant(s).
- ➔ **Recommendations:** The Applicant should provide ongoing recommendations for the sustainment and growth of each DBT program. Additionally, the Applicant should demonstrate in the proposal their understanding of a public mental health system that experiences frequent staff turnover, and how they intend to support agencies in developing internal expertise in DBT to ensure that programming is sustained.
- ➔ **Collaboration:** Collaboration with CBH will be expected to ensure support in system implementation. This will include consistent communication, system-level guidance, and the ability to integrate CBH recommendations into the work plan.
- ➔ **Adaptations:** The Applicant should consider adaptations to the work plan that may be required to fit agency culture and needs, particularly if these needs change during implementation. This may include staff turnover or staff who need additional support to reach mastery.
- ➔ **Culturally Responsive Practices:** Following best practices for implementing DBT in a culturally responsive way. This includes ongoing work/research to incorporate culturally responsive strategies, engaging experts in this area, and making efforts to have trainers/consultants from diverse backgrounds.

2.3. Monitoring

The CBH EPIC Department will manage the contract. An individual from that unit will be identified as the point person for the work to be conducted under the contract developed through this RFP and will monitor those activities for the duration of the contract.

Dialectical Behavioral Therapy (DBT) Training Services

2.4. Reporting Requirements

The selected Applicant will be expected to provide periodic training and consultation status reporting, with details to be determined with the selected entity. At a minimum, the Applicant must provide documentation of work performed (e.g., training and consultation records, video or audio sessions reviewed for competency, etc.) upon submitting each invoice. The Applicant must also be able to conduct assessments of implementation progress, reporting any challenges to full implementation, along with recommendations to remedy these concerns.

2.5. Compensation/Reimbursement

A cost proposal must be provided based on the Applicant's best understanding of the project's scope and the services to be delivered. This should be presented as the total cost, itemized by each phase of the project (i.e., expected project deliverables detailed in Section 2.2.), and further by a detailed list of charges for services, including hourly personnel rates for all staff assigned to this project, subcontractor fees, reimbursable expenses, and other miscellaneous costs and fees. Services for the proposed project will be reimbursed as they are incurred by submitting invoices to CBH. Services will be paid for on an "as-rendered" basis.

While CBH may award a contract based on the initial offer, an Applicant should make its offer on the most favorable terms. CBH reserves the right, however, to have discussions with those potential consultants falling within a competitive range, and to request revised pricing offers from them and to make an award or conduct negotiations thereafter.

2.6. Organization and Personnel Requirements

At a minimum, the following are required:

- ➔ Advanced clinical expertise in DBT
- ➔ Experience teaching and providing large-scale training in DBT
- ➔ History of direct clinical work with DBT treatment developer Dr. Marsha Linehan, including at least 50% of team members with DBT-Linehan Board Certification
