

## **CBH Provider Directory Review**

---

An accurate provider directory is essential to ensure timely and reliable access to care for CBH Members. Members, families, and other professionals frequently utilize the [\*\*CBH Provider Directory\*\*](#) to locate a service and/or to make referrals. It is critical that the provider's information, displayed in the CBH Provider Directory, is accurate and that contact information is functional. Incorrect information can impede timely referrals and access to care.

CBH requests that all providers verify the accuracy of their information listed on the [\*\*CBH Provider Directory\*\*](#). The Provider Application Administrator should contact their assigned Provider Relations Representative to address any inaccurate information.

Contact your assigned Provider Relations Representative with your questions.
