

All information is supplied by the provider upon joining the CBH Provider Network. Information is verified by CBH upon a provider joining the Network, as well as during the recredentialing process. All information is sourced by CBH using its standard source method.

If CBH receives new information between recredentialing cycles, the Directory is updated.

Both the online and print versions of the Provider Directory are subject to change. New Provider information will be added as it is available.

For questions about the Directory or a listed Provider, please call CBH Member Services at 888-545-2600 or contact the provider directly. For any other information, please visit cbhphilly.org.

* “Language Services” refers to in-person, video, telephone, or written interpretation services.

Applied Behavioral Analysis (ABA)

ABA is a form of highly effective services delivered by Behavior Consultants and Behavior Health Technicians with specialized training and experience. ABA is considered the gold standard for supporting children with Autism and other neurodevelopmental differences. ABA helps children learn new skills, such as how to communicate, interact socially, and do more things for themselves. ABA is also recommended to help decrease problem behaviors that result from children having these types of skills deficits. All staff who provide ABA services are overseen by a Board Certified Behavior Analyst (BCBA) at the provider agency.
