

Update to IBHS Written Order Form

This Bulletin is to inform providers about updates to authorization procedures for Intensive Behavioral Health Services (IBHS). CBH has updated the IBHS Written Order Form to reflect new level of care codes and services.

Please note that CBH has made changes to the form, combining Forms A and B of the previous Written Order template. Both initial and continued requests can be made using the updated form.

Effective June 1, please use this updated [Written Order Form](#) for all requests submitted to CBH.
