

Provider Staff Vacancies Survey

This Provider Notice is being issued as an addendum to the Provider Notice: 2022 Monthly Staff Vacancies Survey issued on February 15, 2022, requesting all providers (with the exception of Mental Health (MH) and Substance Use Disorder (SUD) Outpatient providers) complete the Staff Vacancies Survey on a monthly basis.

The addendum to this Bulletin is being issued to highlight the following: As of the second quarter of 2023, Community Behavioral Health (CBH) is requesting that all providers (with the exception of MH and SUD Outpatient Providers) complete the Provider Staff Vacancies Survey quarterly. Providers should complete the Provider Staff Vacancies Survey by noon on the final day of the following months:

- Quarter 2: due by June 30, 2023
- Quarter 3: due by September 30, 2023
- Quarter 4: due by December 31, 2023

Outpatient providers (MH & SUD) should continue to submit the monthly Mental Health and Substance Use Outpatient Treatment Providers Access Forms.

CBH continues to review providers' Staff Vacancies Survey submissions to better understand the current behavioral health workforce status and to develop and implement strategies to support our provider network in achieving our goal of ensuring adequate staffing to meet the behavioral health treatment needs of Philadelphians.

Thank you for the work you do in our communities. We look forward to continuing to work together to address behavioral health staffing challenges.
