

Family Based Services Value Based Payment (VBP) Arrangement

This notice is to alert Providers to the proposed transition of Family Based Services from a Fee for Service (FFS) payment model to a Value-Based Payment (VBP) Arrangement effective January 1, 2024. There will be a Provider Meeting held on June 28, 2023, at 9:00 a.m. to provide more details about this proposal. This meeting will include general education about VBP and more specific information regarding quality measures and payment methodology for the proposed Family Based Services VBP Plan. The meeting invitation is forthcoming.

The transition of Family Based Services into a VBP arrangement aligns with requirements set forth by OMHSAS to transition a percentage of medical spending to VBP strategies with an enhanced focus on clinical and quality outcomes.

Should you have any questions, please contact the Value-Based Programs team at CBH.VBP@phila.gov.
