

Psychological Testing

Effective June 10, 2024, the authorization requirement for psychological testing will be updated and broken down into two levels of care: Psychological Testing Evaluation Services and Psychological Test Administration and Scoring.

<i>Level of Care</i>	<i>Procedure Code</i>	<i>Level of Care Description</i>	<i>Unit of Measure</i>
300-07	96130	Psychological test evaluation done by a physician or qualified healthcare professional. This code is for the first hour of evaluation. Evaluation can include interpreting standardized test results, clinical decision-making, integrating member data, treatment planning and providing feedback to the member, family, or caregiver.	60 minutes
300-07	96131	Use this code for each additional hour of psychological test evaluation.	60 minutes
300-229	96136	Psychological test administration and scoring done by a physician or qualified healthcare professional. Use this code for two or more tests, any method. This code included the first 30 minutes and scoring	30 minutes
300-229	96137	Use this code for each additional 30 minutes of testing and scoring done by a physician or qualified professional.	30 minutes

Before administering testing, complete and submit the [CBH Psychological Testing Preauthorization Request Form](#). The Provider will receive authorization number(s) once the request is received and approved.

Any questions should be directed to your assigned Provider Relations Representative.
